

Exercise two: MiiA standing exercise

Aim:

This sheet will help you to find the optimum angles which will make MiiA stand. Standing on one leg is the first step to many moves so it is important to ensure that the motors are in the optimum positions.

Hint: Only the two ankle servos are needed. (Motor C and D is set to 90 degrees)

Stand - Right foot

	Motor A	Motor B	Motor C	Motor D
Angle			90	90
Notes				

Stand - Left foot

	Motor A	Motor B	Motor C	Motor D
Angle			90	90
Notes
